CATALOGUE

FOR

— 1905 —

815-817 Sansome St.

SAN FRANCISCO, CAL.

ORDER SHEETS—Each Catalogue is provided with an order sheet and addressed envelope. Please use these in making out and mailing your order. Write so plainly that there can be no mistake as to your name, your address or your shipping directions.

PRICES—All seeds are sent by mail or express, at my expense, at the prices stated, except where noted under different heads. The prices given for 10, 25 and 100 pound lots do not include freight, which must be paid by the party ordering.

HOW TO SEND MONEY—Remittances may be made by any of the following methods: By Post-Office Money Order, by Bank Draft, by Express (by this method all charges must be prepaid), by Express Company's Money Order (this is the best and safest plan), or by Registered Letter (this is the least desirable method). Money should never be sent loose in an unregistered envelope.

I use the greatest care to furnish seeds that are pure and reliable, but do not warrant them in any particular. If the purchaser does not accept them on these terms, they are at once to be returned.

E. J. BOWEN.

VALUABLE TABLES

Quantity of Seed Required to Sow an Acre of Ground.

Lbs. to the Acre

Alfalfa, or Lucerne.....	25 to 30

—SWEET PEAS—

The almost endless number of distinct varieties make the Sweet Pea one of the most popular and interesting flowers cultivated. It is one of the best climbing annuals; very free flowering, with an almost endless variety of shades and markings. The flowers are produced in great abundance for a long period.

CULTURE.—Plant the seed in rich, mellow soil, taking care not to cover it more than two inches. When the plants are about five inches high furnish support for the vines to run upon. Cut the flowers freely, for, if the seed-pods are allowed to form, the plants will soon stop flowering.

SWEET PEAS.

OUR LIST IS COMPRISED OF THE 75 BEST VARIETIES

All Named Varieties, 50c per lb. Choice Mixed 40c per lb.
